

# DIAMOND ALIGNMENT INTENTION CARDS INSTRUCTIONS

***Diamond Alignment is a very powerful way to create changes in your life and to bring your Higher Heart's desires and visions into reality.***

- 1. Write down your intention on the back of the “Diamond-charged” Intention Cards** to physically anchor and “Diamondize” your intention. “Diamondizing” your intention brings it into alignment with your highest Diamond potential to accelerate its manifestation. It works best to place each intention on a separate card.
- 2. Review your intention cards once a week** and record even the smallest changes related to your intention (which will include the clearing of that which is not in alignment with your highest potential and/or that which is limiting your capacity to receive your Higher Heart's desire). Do not be concerned if old limited patterns and thoughts show up first. They are simply emptying from your energy field to make space for the new unlimited possibilities.
- 3. Stay in the Spirit of Gratitude and Appreciation** and acknowledge even the smallest signs of the manifestation of your intention. This will increase your awareness of the Magic and Miracles that are occurring during the Manifestation process and your ability to receive them.
- 4. Power-boost your Diamond Manifestation by consistently doing the online 6-minute Diamond Alignment Activations daily** (twice a day is optimum) to:
  - ◆ Maintain Alignment with your Diamond Self (Intentions manifest much more quickly and for your highest good when you are in this Alignment)
  - ◆ Re-state your Unequivocal “YES” to your highest potential
  - ◆ Expand your openness to receive what you desire

**Place your Intention Card in front of your computer** when you log on ... “see” your intention inside the Diamond during your Activation ... and declare: **“I am open to receive my Heart's desire and celebrate that it is so.”**

**Placing your intention card in front of an activated Diamond printed image** (available in the Diamond store) is another way to super-charge the *Diamond Energy's* flow directly into your written intention until it has manifested.

**Note:** *In the Diamond Manifestation process, the benevolent power of the Diamond gently and gracefully brings your intention into Alignment with your Diamond Self, clears what has limited you in the past, and magnetizes what you need to manifest your desire. When there is much to release or your intention is large, it may take a little longer to fully manifest your intention.*

*Your intention may also be altered a bit as it comes into Alignment with your Soul. Be patient and compassionate with yourself in this process and KNOW that you will definitely manifest what serves the highest Diamond Potential of your Soul.*

\*“Fine” felt pens and certain ballpoint pens work best on these high-quality cards.

Intention Cards also bring Diamond Energy into your car, office, home, etc. – they will stand up freely when folded vertically.
