DIAMOND ALIGNMENT

Instructions for getting the most out of your Diamond-charged Art

Wherever it is placed, the Diamond-Activated Image brings Diamond Joy, Equanimity and Clarity into the environment ... raising the vibration of the space and everyone and everything in it. **The Diamond Energy being emanated** will gently clear that which is not in alignment with your Highest Potential and magnetize that which is in alignment with your Highest Potential.

1. **Track your changes.** Notice how you feel before you walk into your newly Diamond-charged environment and then how you feel immediately after walking into the space, after being in the space for a few hours, and after having the Diamond-Activated Image in your space for a few days. Keep a journal of the changes that you feel, as well as the Magic and Miracles that occur in your Diamond Energy field.

2. **Stay in the Spirit of Gratitude and Appreciation.** This will increase your awareness of the effects of the Diamond emanation in your space, sensitize you to the Magic and Miracles that are occurring and enhance your ability to receive them.

3. **Amplify your Diamond Vibration by consistently doing the online 6-minute** *Diamond Alignment Activations* **daily** (twice a day is optimum) to:

    ♦ Maintain Alignment with your Diamond Self (Your Highest Good manifests much more quickly when you are in this Alignment)

    ♦ Re-state your Unequivocal "YES" to your Highest Potential

    ♦ Expand your openness to receive the gifts that your Diamond Consciousness has for you

4. **Use your Diamond-Activated Image to "power boost" the manifestation** of your Higher Heart's intentions. Write your intention on the back of a *Diamond Alignment* Intention Card (available in the online Diamond store). Place the card in front of the Diamond Image to focus the Diamond Energy's flow directly into your intention until it has manifested. Align the vertical beams on the Activated Image and your Intention Card.

Declare once a day, *"I am open to receive my Heart's desire and celebrate it as so."*
